

ARTP Non-Invasive Ventilation (NIV) Course

5th and 6th October 2026

Location: Solihull

Target Audience:

Qualified Healthcare Professionals, including Nurses, Physiotherapists and Healthcare Scientists. Delegates should have previous experience of working in a home ventilation service, critical care or respiratory support unit.

Aim and Objectives:

The course aims to provide delegates with the underpinning knowledge, practical experience and pitfalls of running both acute and home non-invasive ventilation services. This course is aimed at all practitioners from AfC Band 5 upwards who are involved in the delivery of NIV services both within the acute and/or the home setting.

The course will be delivered over two days covering the basic principles of NIV including treating acutely unwell patients (Day 1) and clinical applications of NIV for patients who require home NIV (Day 2).

Course Programme
